

ENGINEERING

CONCEPT DEVELOPMENT · BASIC & DETAILED ENGINEERING · COST & SCHEDULE CONTROL · LIFECYCLE MANAGEMENT

Our services cover the entire planning chain of basic, detailed and software engineering. From cost and schedule planning, commissioning and life cycle services, to dismantling of the system. Bilfinger Switzerland always keeps an eye on the schedule, costs, quality and goals, either as a full-service partner or for individual engineering projects.

Our Core Skills

- Managing the handling of customer-specific projects
- Construction of new systems or coordination of repairs, system conversions and optimisations
- Designing and developing technical solutions
- Supporting projects, from the planning phase to the implementation phase, through to handover, commissioning or dismantling
- Planning, organisation and implementation of revisions and shutdowns
- Regular reporting, project documentation and coordination of available resources
- Communication with customers, suppliers and authorities
- Deadline and cost controlling

Experience in the following industries

- Chemical and Petrochemical
- Energy and Utilities
- Pharma and Biopharma
- Food, etc.
