Bilfinger Berger reduces investments in Nigerian business

Bilfinger Berger and its minority shareholding Julius Berger Nigeria PLC (JBN), Abuja, have signed a letter of intent according to which JBN will acquire the engineering and services activities of Bilfinger Berger Nigeria GmbH, Wiesbaden. The current output volume of activities to be sold amounts to approximately €350 million. Bilfinger Berger's investment in the business, which is part of the Building and Facility Services segment, will be reduced initially to 40 percent with a further reduction planned at a future date. There will be no job cuts as a result of this measure.

Negotiations on the actual configuration of the sale are currently at an early stage.

In addition, as previously announced, Bilfinger Berger's investment in JBN will be reduced from 49 percent to below 40 percent. Discussions in this regard are currently being held with investors.

The conclusion of these transactions is not expected in the current financial year.
